Appendix B. Income Guidelines for Earned Income Tax Credit and Federal Poverty Levels

The Earned Income Tax Credit eligibility and Federal Poverty Levels are both useful in determining whether a client is eligible to participate in the Assets for Independence Program.

EITC Income Guidelines

Income and family size determine the amount of the Federal Earned Income Tax Credit an individual or family may receive. For tax year 2003, to qualify for the credit, a person's or family's investment income must be \$2,600 or less. In addition, both earned income and adjusted gross income for 2003 must be more than \$1 but no more than the amounts listed in each category in table B.1.

Table B.1. Income Caps for Earned Income Tax Credit - 2004		
Families With the Following Number of Qualifying Children	Family Head Filing Individually	Married Filing Jointly
0	\$11,490	\$12,490
1	\$30,338	\$31,338
More than 1	\$34,458	\$35,458

Please note that these income limits vary each year. For more information about the EITC, please see the Internal Revenue Service Web site at <http://www.irs.gov> and then search for "EITC."

Federal Poverty Levels

For the Assets for Independence Program, Poverty Levels used for eligibility are the Poverty Thresholds set by the Office of Management and Budget. See the Federal Poverty Levels at: <http://www.aspe.hhs.gov/poverty/index.shtml>

Appendix C. Gathering Data on Your Target Population

National data, such as U.S. Census Bureau statistics, can help AFI applicants document local population characteristics. Various other tools and strategies, described below, have been used by AFI Projects to provide additional insights into your target community.

- **Needs Assessments.** One grantee used an existing area-wide needs assessment with demographic information on who receives assistance, who has children, and divorce rates. For AFI, the data indicate, for example, the number of families that could qualify for IDAs under the guidelines.
- **Focus Groups.** Some agencies convene focus groups of providers or community members to find out about the target population and people's interest in IDAs. Several current AFI Projects said they had convened people already using their agency's services to learn about their ability to save, readiness to take time needed for training, comfort level with financial institutions, and interest in IDAs. One AFI Project convened five focus groups divided by common group characteristics (e.g., former welfare recipients, youth over 18), and followed traditional focus group methodology. The groups went through thirty questions on financial readiness topics: *Have you maxed out your credit cards? Ever read your credit report? Ever been denied credit?* "We found that the credit history of many clients was not *bad* credit, but rather *no* credit," said the IDA manager for this Project.
- **Key Informant Interviews.** Another form of qualitative information is often gathered from contacts with agencies serving low-income populations. These can be informal contacts but (for AFI application purposes) are best done more formally through standard interview protocols. One applicant looked inside its agency and did informal interviews with staff working on related programs.
- **Networking.** Several AFI grantees spent time talking to other groups in their area and from around the country to find out how they managed their AFI Projects. One grantee looked at lessons learned from the earlier privately funded ADD program (American Dream Demonstration)—a precursor to AFI in the late 1990s. "We did some significant listening and sharing on what works and doesn't work," said one AFI Project staff person.

Appendix D. Designing Project Reserve Account and Participant IDAs

AFI has many requirements regarding the Project Reserve Account and the IDAs. Knowing these requirements and including them in any agreement with your financial institution partner(s) is the key to a successful AFI Project. Below are some important tips in designing and managing your AFI Project accounts.

- **Keep Accounts in Federally Insured Financial Institution(s).** Project agencies must maintain the Project Reserve Account at a Federally insured financial institution such as a bank or credit union. If no Federally-insured institution is available, accounts may be maintained in a State insured financial institution.
- **Don't Intermingle Funds.** The Project Reserve Account and the IDAs must be separate and distinct from other accounts held by your organization or by the program participants.
- **Draw Federal Funds When Nonfederal Funds Are Available and Deposited Into the Project Reserve Account.** Organizations that are managing AFI Projects may draw down their Federal grant funds as soon as the nonfederal contribution is available. It is best to have access to the nonfederal contribution as early as possible, and to draw the total of the Federal grant amount as soon as the nonfederal funds are deposited into the Project Reserve Account. Funds deposited into the Project Reserve Account—that is, all nonfederal contributions and the Federal grant amount—may earn interest income. The resulting interest income may be used to augment the total resources available for the program. Once an amount is allocated to a participant IDA, however, the interest income earned on that amount is also allocated to the IDA (see below).
- **Interest Income.** AFI does not require that Project administrators manage the Project Reserve Account to earn interest income. However, if the Project Reserve Account does earn interest income, and if a portion of the Account is allocated for participant IDAs, a prorated portion of the interest income must be allocated to the IDAs. For example, a Project Reserve Account earns 5 percent interest on the total amount of funds deposited. The first IDA is opened, and the participant has saved a total of \$300 in the first quarter. If the program has a 2 to 1 match rate—two dollars in match for each dollar the participant contributes—then the participant has earned \$600 in match, plus the prorated three months' interest on that \$600 (at a rate of 5 percent annually).

TIP: It is a great “added value” marketing tool to be able to offer interest on top of the match itself. First, many IDA program staff report that this offers a little more incentive and sense of efficacy for participants. Second, the interest earned on the fund in the Reserve Account is available to the grantee organization for other uses (e.g., administrative costs), as long as it is not already dedicated to IDAs.

Appendix E. Sample Savings Plan Agreements

Before a new IDA is opened, the participant and the AFI Project must commit to a set of rules and responsibilities outlined in a savings plan agreement. The following are some elements you may want to include in saving plan agreements between AFI Projects and participants. But this is just a sample. Tailor this to your needs.

- A savings goal including a proposed schedule of savings deposits by the participant from earned income, which must be for a period of more than six months but less than five years.
- The proposed qualified expense (first home, education, microbusiness) for which the account is maintained.
- The length of time to achieve the participant's savings and asset acquisition goals.
- The rate at which participant savings will be matched (from one dollar to eight dollars for each dollar in savings deposited by the participant). (Note that the Federal grant funds portion of the match may not exceed \$2,000 per individual and \$4,000 per household during the five-year project period.)
- The schedule of match deposits and interest allocation to be followed by the AFI Project.
- Agreement by the AFI Project to provide financial education training and agreement by the participant to attend.
- Any additional training or education related to the qualified expense which the AFI Project agrees to provide and which the participant agrees to partake.
- Process for notification of participant in the event that the participant exceeds or fails to meet projected savings goals. Process will include schedules and contingency plans.
- Any agreement as to investments of assets maintained in the Reserve Account.
- An explanation of withdrawal procedures and limitations, including the consequences of unauthorized withdrawals.
- Provision for disposition of the funds in the IDA in the event of the participant's death.
- Provision for amendment of the agreement with the concurrence of both AFI Project and participant.

Below are two examples of Savings Plan Agreements that incorporate many or all of the suggested elements. Again, these are just samples.

SAMPLE SAVINGS PLAN AGREEMENT 1

Between the IDA Program and _____
Participant's name

The IDA Participant understands and agrees that:

1. The IDA Program is designed to assist the participant in achieving greater economic success through training, savings, and matching funds.
2. The participant shall open an IDA savings account at **NAME OF BANK**.
3. The participant is not subject to regular account fees throughout the term of the program. [NOTE: Banks may resist dropping fees. If so, think about how to get around them, like maintaining a minimum balance or making minimum deposits each month.]
4. The participant shall make a monthly deposit into the IDA account from his/her earned income with the minimum deposit allowed being \$20 and the maximum monthly deposit allowed being \$80. If no deposit is made one month, the participant must consult with **THE AFI PROJECT** to readjust her/his savings plan. If the participant is delinquent several times s/he may be terminated from the program.
5. **THE AFI PROJECT** will match, in its own account, the participant's savings at a rate of \$2 or \$3 in match money for every \$1 saved in the IDA, depending on the participant's income level.
6. The participant must be in this program for a minimum of one year and a maximum of three years, allowing for a maximum matched savings limit of \$800 at the 3:1 match rate and \$1,600 at the 2:1 match rate. Additional savings above the limit are encouraged, but not matched.
7. After the first year from the date of opening an IDA account as well as upon successful completion of the program, and after consultation with **THE AFI PROJECT**, a participant in good standing may withdraw his/her savings and use matching contributions for the following qualifying expenses:

- a. Post-secondary or industry-related vocational education
- b. Industry-related business capitalization

THE AFI PROJECT shall have full discretion to decide what constitutes Qualified Expenses and how the savings and matching contributions shall be disbursed in paying for the Qualified Expense.

8. The participant is required to complete **THE AFI PROJECT's** financial literacy course and any missed classes must be made up within 12 months. Failure to do so will be grounds for termination from the program.
9. Withdrawals for purposes other than paying for the Qualified Expenses are not allowed. However, in the event of an emergency, withdrawals may be permitted for certain situations. Such emergency withdrawals from the IDA savings account require the

approval of the IDA Project Manager and will be permitted no earlier than six months after the initial deposit by the participant and only for the following:

- a. Medical expenses
- b. Payments necessary to prevent eviction
- c. Necessary living expenses following loss of employment

No matching contributions will be made until the withdrawn amount has been fully repaid. If the withdrawal amount is not paid within 12 months, the participant will not be permitted to continue in the program.

10. The participant may designate a beneficiary to receive his/her IDA in the event of the participant's death prior to successful completion of the program. To the extent allowed by law, the designated beneficiary will be entitled to the deceased participant's savings. Moreover, if the beneficiary qualifies for participation in the IDA program at that time, then she/he will be eligible to complete the requirements of the IDA program and receive the deceased participant's matching contributions.
11. The participant shall be free at any time, after consultation with **THE AFI PROJECT**, to terminate participation in the program and will be able to withdraw his/her savings and any interest earned upon these savings.
12. If the participant's participation in the program is terminated, he or she will become ineligible to receive any matching contributions.
13. Upon termination, a participant's IDA will be transferred to a regular savings account at **NAME OF BANK** over which the participant has full responsibility and control. This savings account will be subject to all the normal fees and regulations.
14. During the course of the program, the participant is encouraged to address any credit problems he/she has that will affect his/her success in achieving the asset goal.
15. **THE AFI PROJECT** Program staff/outside consultants may be reviewing information regarding each participant for program evaluation purposes. *All information provided for this evaluation will be confidential and participants' names will never be used in any reports or summaries originating from this evaluation without prior written consent.*
16. The participant shall participate in evaluation activities, which may include completing surveys, participating in focus groups and one-on-one interview.
17. The participant shall notify **THE AFI PROJECT's** IDA Project Manager before making emergency withdrawals, missing a money management class or missing a monthly savings deposit.
18. **THE AFI PROJECT** IDA Program reserves the right to change IDA Program rules and policies during the term of this letter of agreement. Written notification of any changes will be provided to participants prior to its taking effect.
19. In the event of any inconsistencies between provisions herein and applicable Federal, State, or local law, this Agreement shall be construed to omit the provisions herein that are inconsistent with applicable law and to substitute in their place the relevant provisions of applicable law.

THE AFI PROJECT agrees:

1. To allocate \$2 or \$3 in matching funds, depending on the participant's income level, for every \$1 a participant saves up to \$800 (for a 3:1 match) or \$1,600 (for a 2:1 match).
2. To provide account holders with monthly statements of savings and accrued matching contributions.
3. To coordinate and provide a financial literacy program and additional support services for the participant in order to enhance the participant's savings efforts and to further progress toward asset goals.
4. To work with the participants so that program elements do not in themselves discourage participation in the program (for example, to offer alternative times for financial literacy training).
5. To work with participants to ensure that their savings timeline and plan are feasible and contain reasonable goals.
6. To work with participants at their request to address any barriers to completing all of the requirements for eligibility in the program, including assisting them to find other resources for emergencies in lieu of making a withdrawal from the IDA.
7. To assist participants in finding appropriate training to prepare them for their specific asset goals.
8. To make IDA funds and any interest earned thereon and matching funds available for the participant at the time of asset purchase. *Funds will be disbursed directly to the asset vendor (i.e. an educational institution or business supplier).*
9. To work with participants for up to one year after program completion, providing counseling and referrals to provide support for participants as they strive to maintain their goals for success.

I understand the terms and conditions set forth above for participating in the **AFI PROJECT** Individual Development Account Program.

SAMPLE SAVINGS PLAN AGREEMENT 2

1. My annual savings goal for the Individual Development Account program is _____ over the course of two years. I understand that a maximum of \$1,000 will be matched by **THE AFI PROJECT** annually at a rate of 2:1 (**THE AFI PROJECT** will contribute two dollars for every dollar that I save towards one of the designated assets).
2. My monthly savings goal will be _____. I understand that I am required to make monthly deposits from earned income, with a minimum monthly deposit of \$15, to **NAME OF BANK** in the form of _____ and that I am able to miss a maximum of three monthly deposits over the course of one year. I will be notified and warned of termination after three missed deposits. If I must miss one, I must contact the Program Coordinator immediately to discuss. [Note: Some programs lack the staff to do this level of personal follow-up with clients—the time to visit and counsel—so take this into consideration.]
3. My asset goal is the following: _____
4. In order to be a part of this program and to receive the savings match, I must attend the 9-session personal money management course. In the event that I miss a class, I must call the Program Coordinator immediately to discuss the situation, and must make arrangements to make up for the missed session. In addition, I agree to complete all session summary activities as required. Upon completion of the 9-session class, I have the option to participate in further training in starting a business, buying my first home or going back to school through either **THE AFI PROJECT** or a community partner.
5. I will not withdraw from this Savings Account under any circumstance without consulting the Program Coordinator. Unauthorized withdrawals may force me to be dropped from the program and I forfeit my rights to any match monies accrued. If at any time I am not able to meet my monthly savings goal, I will call **the Program Coordinator and discuss the situation immediately.**
6. I will review my savings and asset goals and my performance in meeting or exceeding these goals. If a revision is in order, I will make an appointment to revise this Agreement with the Program Coordinator.
7. In the event of my death, I understand that if I designate another account-eligible individual as the beneficiary, they will receive both my savings and earned match. If I designate someone who is not eligible for an account, the beneficiary will receive only my savings, and my earned match will be used to match other account holders. Accordingly, I designate the following beneficiary: _____

8. Withdrawing Money: With this special matched savings account, I can withdraw money after I have made monthly deposits over a six-month period. I must bring a copy of my recent pay stub to withdraw funds for one of the three purposes listed below:

- Starting or expanding a small business, with an approved business plan—equipment, inventory, and/or marketing material can be purchased.
- Purchasing my first home—upfront costs (i.e. earnest money, appraisal, and home inspection cost) should be done one month prior to closing. Include an estimated cost of any repairs and replacements at the time I request funds.
- Going back to school—tuition, entrance, registration, and lab fees can be paid with savings match. The purchase of necessary equipment including a computer is also allowable. All requests for payment must be current.

9. All checks will be made payable to a third party vendor. _____

Initials

10. Withdrawals after the first initial draw can only be made quarterly. *With the exception of first-time home purchase.*

11. In special circumstances, I will be able to withdraw money (without matched dollars) for emergency purposes. I am allowed 12 months to replace that money to continue to be a part of the program. I must meet with the Program Coordinator and fill out and sign the Emergency Withdrawal Agreement.

12. In order to withdraw any money, I must obtain a signature from the IDA program coordinator before going to the bank. This ensures that my purchase is well thought out and that I am using it for one of the three assets listed above. All account withdrawals require dual signatures—one from the IDA program coordinator and one from me. _____

Initials

I agree to the terms and conditions as stated above.

Appendix F. Marketing, Recruiting, and Retaining IDA Participants

Program staff sometimes struggle with explaining IDAs and AFI regulations to the public, including to potential applicants. When marketing an AFI Project, the general rule is to keep things simple and clear so that people will be attracted to the program and so that all potential participants will be clear about their roles and responsibilities.

Most projects find that they lose participants between initial recruitment (an orientation session or in a phone inquiry) and account opening. Attrition may happen because of a breakdown between marketing activities and reaching the intended audience. Public service announcements on local radio stations may be useless, for example, if the people they draw to orientation sessions are ineligible for the program. In order to anticipate recruitment challenges, make sure that the initial assessment of your organization's target population (i.e., your needs assessment) predicts that population's capacity and interest in a program like this as accurately as possible. The following are some helpful questions to assist you in planning marketing and recruitment strategies:

1. What will your target population likely wonder about the IDA concept when they first hear of it? (If you are unsure of this answer, talk to program staff at your organization or a partnering agency *or* speak to members of the target population directly in focus groups or even informal, ad hoc conversations.)
2. Is the flow of program operation and essential program policies established and clearly communicated so that program staff and participants know how to navigate the elements of the program?
3. Are written documents describing the flow and policies clear and simple? Try testing them with a variety of folks of different ages, reading levels.
4. After you have described the program to a potential participant, can he or she easily describe back to you the benefits of the IDA and what they need to do to apply?
5. Are program partners clear about their roles and responsibilities? Are they in good standing with the target population? Are they ready to launch this program with you?
6. Do you have an assessment of the market conditions for your asset purchases in your community? Do you have a plan for tapping other resources for additional support for participants as needed as they navigate the purchase process?
7. In order to limit attrition, are you confident that the financial education and asset training sessions will be available at various times and often enough to keep your Project participants on track with the savings and training time line? Are you concerned that workshop sessions may begin late in the program period, get overbooked, or be offered too few times to meet participant needs?
8. Have you developed contingency plans for delays in recruitment, attrition during the savings period, and participant delays in securing a successful asset purchase?

Appendix H. Sample Job Description

The following is just one example of a job description for the program coordinator function at an AFI Project. Staffing configurations and staff roles and responsibilities vary from project to project. For example, some positions will entail far less individualized support for clients because there will be too many clients-per-staff to do this level of work.

Position: IDA Program Coordinator

Full-time position responsible for coordinating **THE AFI PROJECT**'s Individual Development Account (IDA) and Economic Literacy Education programs. Reports to Director.

Duties and Responsibilities

1. Maintain and improve the daily operations of **THE AFI PROJECT**'s Economic Literacy initiative, including Individual Development Account (IDA) program. Meet or exceed required program goals and outcomes.
2. Coordinate and maintain all record keeping and financial tracking for the individual IDA account holders using AFI information system software. Process ongoing client statements on schedule. Maintain relationship with our bank partner(s).
3. Coordinate all **THE AFI PROJECT** info sessions, training classes, and follow-up session logistics, including: scheduling, guest speakers, facilities, materials, promotion, confirmations, tracking, evaluation, and follow-up. Facilitate/teach all sessions, training classes, and monthly Savings Club meetings.
4. Work one-on-one with current and future class participants and IDA account holders. Meet at least twice annually and talk quarterly. Assist participants in opening/maintaining agreements and accounts. Develop strategies to encourage participants to save regularly. Provide help with classroom homework/missed sessions.
5. Develop and implement regular outreach and program promotion, including: news releases, flyers, media coverage, telemarketing, correspondence, etc.
6. Complete all required funder reports accurately and on time. Provide president with program materials, status, and outcomes as requested.
7. Develop, improve, and upkeep a policy and procedure manual for the program.
8. Assist in overall mission of **THE AFI PROJECT** by working in a team environment to effectively complete other duties as assigned.

Qualifications

Minimum of two to three years' experience in economic development, credit/financial education, or program coordination. High school degree required; bachelor's degree preferred. Must be detail-oriented and possess strong organizational, verbal, and written communication skills. The capacity to function in a fast-paced, growing organization is vital. The ideal person is flexible and positive and has a sense of humor. Demonstrated ability to communicate effectively and work collaboratively with diverse audiences is necessary.

Appendix I. Why Financial Institutions Want to Partner

The Corporation for Enterprise Development, in *The Individual Development Account Program Design Handbook: A Step-by-Step Guide to Designing an IDA Program*, offers the following selling points to underscore when recruiting a financial institution partner:

1. **Publicity and Public Relations.** Banks and credit unions are in business with the public. A good reputation and strong name recognition are important assets. Participating in a well-publicized IDA program can generate both.
2. **Deposit of Matching Funds.** IDA matching funds are attractive deposits for financial institutions because they are generally large sums of money that involve little account activity (until program participants make qualified withdrawals) and are deposited for long periods.
3. **Develop New Customers.** IDA participants are a new source of customers for financial institutions. Although IDA accounts themselves may not generate profits for a financial institution, successful IDA participants are likely to conduct more profitable business in the future at the financial institution with which they've already established a relationship through their IDA involvement.
4. **Community Commitment.** Many financial institutions have a stated mission to serve and respond to the needs of their communities. IDAs are an ideal way for financial institutions to do this while operating within their own industry.
5. **Generate Other Business.** Participating in an IDA program can lead to other forms of new business for financial institutions, whether from friends or relatives of an IDA participant or the finance departments of a sponsoring organization or program partner.
6. **Community Reinvestment Act Credit.** Under the Community Reinvestment Act (CRA), banks are required by law to invest in their communities. IDA program involvement can count toward CRA credit. For more information on the Community Reinvestment Act and how it works, visit the Web site for the National Community Reinvestment Coalition at <http://www.ncrc.org>

Appendix J. Financial Institution Partner Agreement

Below are suggested elements to include in agreements between AFI Projects and financial institution partners:

- Statement that the Project's Reserve Account will be established in the financial institution.
- Details about how the IDA accounts will be established in the financial institution through written governing instruments, including the requirements for deposits (by cash, check, money order, or electronic transfer) and withdrawals (signature of the account holder and of a responsible official of the project grantee required).
- Specific information on how, when, and where participant deposits will be made.
- Details on how and when matching contributions will be made (e.g. in a Reserve Account).
- The rate(s) of interest to be paid on amounts in the Reserve Account and on the amounts in Individual Development Accounts.
- The rate and frequency of interest payments on accounts, including matching contributions.
- Statement that the accounting procedures to be followed in account management will conform to the Guidelines established by the Secretary of Health and Human Services as set forth in 42 CFR Parts 74 and 100.
- Details on the data and reports that will be furnished to the AFI Project concerning the Reserve Account and IDA accounts.
- Discussion of the nonfederal share contribution or other financial commitment, if any, being made by the Financial Institution for deposit in the Reserve Account or elsewhere, and the schedule of deposits of such contribution(s).
- Details on other services to be provided by the Financial Institution(s) specific to this project, which might strengthen the project's application for AFI funding. These may include but are not limited to Financial Education Seminars, waiving of customary fees or favorable pricing on fees, out-stationing of services or financial institution personnel in community facilities, or assistance in the recruitment and maintenance of AFI Project participants in the pursuit of project goals.

Below is one example of a Financial Institution Partner Agreement that incorporates many of the suggested elements.

SAMPLE FINANCIAL INSTITUTION PARTNER AGREEMENT

Keep in mind that this is just a sample. The bank may be willing to all of these provisions, but some will not. Be ready to modify this to make it work. Don't let lack of cooperation from a bank become a barrier to your program design.

NAME OF BANK is making a nonfederal cash match contribution as well as an in-kind contribution to the Federal IDA Program at **AFI PROJECT**. The details of this commitment are as follows:

1. **NAME OF BANK** will hold a Reserve Account, in the name of **AFI PROJECT**, which will hold the **AFI PROJECT'S** nonfederal cash and the Federal grant funds.
2. In accordance with the AFI Act, **NAME OF BANK** agrees to, as soon after the receipt as is practicable, deposit into the Reserve Account all funds provided to our bank from public or private sources in connection with the **AFI PROJECT** and any investment proceeds from the Reserve Account.
3. The Reserve Account will accrue interest on a monthly basis at a rate of 1.23% (subject to change due to periodic rate adjustments made by the bank at its discretion).
4. The IDA Account will be opened when an approved project participant comes into a designated location (street address of **NAME OF BANK**) and presents an Account Form, signed by the applicant and the IDA Coordinator, to a teller or Bank Manager along with an initial deposit of at least \$50.00. **NAME OF BANK** will implement staff training and policy and procedure development for IDA Accounts at an estimated in-kind value of \$5,000.00. The Account Form will include the participant's name, address, telephone numbers, social security number, asset goal, total savings goal, monthly savings goal, and method of payment (cash, check, money order, or electronic transfer).

A participant must present an Authorized Withdrawal Form, signed by the participant, IDA Coordinator, Economic Development Director, and Executive Director before the participant's share and match share will be issued toward an authorized withdrawal. This form will include the vendor to whom the cashier's checks will be written and the accurate amounts of the participant's share and the match share plus interest earned.

5. After the IDA Account is opened, participants who make deposits by check or money order may make deposits at any **NAME OF BANK** location by coming in, mailing the deposit, or using online banking. Cash deposits can be made at any location, but cannot be mailed. Deposits must be made before the 4:00 P.M. on the last working day of the month otherwise the deposit will be reflected on the next month's statement.
6. **AFI PROJECT** will be responsible for tracking all monthly allocations for the participant and interest accrued to each participant. Since all matching funds are held in the Reserve Account, the matching contributions plus interest accrued will only be issued from the bank when a participant supplies a completed Authorized Withdrawal Form to the bank and only for the amount stated on the Authorized Withdrawal Form.

7. The IDA Accounts will be regular interest bearing savings account, held in the name of the participant and will accrue interest on a monthly basis at 1.23% (subject to change due to periodic rate adjustments made by the bank at its discretion). The interest rate on the match will be equal to the interest rate received in the Reserve Account.
8. **NAME OF BANK** complies with FDIC accounting regulations, reporting quarterly and annually. **AFI PROJECT** follows Government Auditing Standards: OMB Circular A-IIO Uniform Administrative Requirements for Grants and Agreements for Non Profit Organizations, and A-122 Cost Principles for Non Profit Organizations.
9. **NAME OF BANK** will supply **AFI PROJECT**, free of charge, with a monthly statement or spreadsheet reflecting the deposits, withdrawals, and interest accrued in both the Reserve Account and participants' accounts. Additionally, the \$50 requirement is half that expected of those opening a standard savings account. Each participant will receive, free of charge, a monthly or quarterly statement, which will include their deposits, withdrawals, and interest accrued. These services are estimated at an in-kind value of \$4,000.00.
10. **NAME OF BANK** is making a commitment to **AFI PROJECT**, contingent upon award of IDA grant, of \$80,000.00 nonfederal match to the Federal IDA Program. The funds will be contributed as follows: \$20,000 in 2003, 20,000 first quarter 2004, \$20,000.00 first quarter 2005, and \$20,000 first quarter 2006.
11. In addition to the funds, **NAME OF BANK** will also provide trained bank employees to assist with financial education, which is an estimated in-kind value of \$20.00/hour per employee. The bank will allow **AFI PROJECT** to use the Conference Rooms during or after business hours at an estimated rate of \$50.00/hour as in-kind. **NAME OF BANK** also commits to waive fees customarily associated with opening and monthly service fees of an interest bearing savings account for the Reserve Account and the IDAs, which is an estimated in-kind value of \$5,000.00 for approximately 40 participants.
12. Besides the nonfederal cash match commitment, the total in-kind estimates are valued at \$30,000 over the next 5 years.

Appendix K. Nonfederal Share Commitment Letter

Nonfederal share commitment letters demonstrate to OCS that an AFI applicant has the required amount of nonfederal funding (greater than or equal to the amount of Federal money requested). Letters or documents confirming this funding are a required component of any AFI application. There is no preferred format for these letters or documents. They simply must indicate the funding levels and be signed by authorized representatives. Below are two examples of AFI Project nonfederal share commitment letters.

It also features a downloadable guidebook, The AFI Project Builder that covers many topics and includes suggestions and best practices for planning, starting and implementing an AFI Project. Applicants can visit the website to obtain more in-depth information

regarding the requirements for applying for and implementing an AFI Project.

Program Purpose and Scope

The purpose of the Assets for Independence Program is to demonstrate and evaluate the effectiveness of asset-building projects that assist low-income people in becoming economically self-sufficient by teaching them about economic and consumer issues and enabling them to establish matched savings accounts called Individual Development Accounts (IDA). The program is demonstrating and evaluating the effects of AFI projects and IDAs in terms of increasing the economic self-sufficiency of low-income families; promoting savings for first-time homeownership, post-secondary education, and small business or micro-enterprise development; and stabilizing and improving families and communities.

OCS seeks to support innovative AFI Projects administered by national, State-wide, regional and community-based organizations. Organizations that may apply include, but are not limited to, Community Action Agencies; community development corporations; financial institutions such as banks, credit unions, and community development financial institutions; faith-based and community organizations; State and local government agencies; and other organizations such as marriage strengthening coalitions; service and fraternal organizations; schools, colleges and universities; and consortia or groups of organizations that collaborate to administer an AFI Project.

A broad range of organizations may be eligible for AFI Project funding, including the following:

- Organizations with projects that serve communities and groups that are less represented among the current AFI Projects such as residents of rural areas and Native American individuals or communities.
- Organizations with projects involving schools, colleges or universities to provide services to youth who are saving to attend higher education.
- Organizations with projects involving area businesses to provide services to the employees of those businesses. This may include local government agencies that seek to provide an IDA benefit for their employees.
- Organizations with projects involving the agency that manages the local welfare (Temporary Assistance for Needy Families—TANF) program; other offices that manage employment, education, and training

initiatives; and agencies that manage child support enforcement.

—Organizations with projects administered by a consortium or network of organizations including a lead organization and one or more subsidiary organizations. In this arrangement, a lead organization receives the OCS funding and administers the overall AFI Project including the financial accounting services for the project, while the subsidiary organizations provide services to project participants in a defined locality or a certain target population in a region, State, city or other geographic area. OCS believes such consortia or network arrangements may be particularly cost effective and efficient.

—Organizations with projects involving family strengthening coalitions and related organizations in an effort to integrate asset-building work with activities that promote healthy marriage and family formation. These activities may include, for example, communication skills training, marriage-oriented financial education, family budgeting, and marriage enrichment training. The goal for integrating asset building with healthy marriage projects is to link financial education with family budgeting abilities and marital communication skills that help to strengthen families and improve the communities in which families live.

OCS encourages and will provide preference to applicants that:

- Propose projects that will enroll participants from households with children;
- Propose projects that will enroll individuals residing within relatively well-defined neighborhoods or communities that experience high rates of poverty or unemployment; or
- Propose projects with a proportionally greater amount of funds committed from private sector sources.

Please see Section IV, for required documentation supporting eligibility and/or funding restrictions.

2. Cost Sharing/Matching

Cost Sharing/Matching: Yes.

Matching/Cost-Sharing

Grantees are required to meet a non-Federal share of project costs in accordance with Section 406(b) of the Assets for Independence Act. Grantees must provide at least 50 percent of the total approved cost of the project. The total approved cost of the project is the sum of the ACF share and the non-Federal share. The non-Federal share may be met by cash contributions only. Therefore, a project requesting \$350,000 in Federal funds (based on an award of \$350,000 per budget period) must provide a match of at least \$350,000 (50 percent of the total approved project costs). Grantees will be held accountable for commitments of non-Federal resources even if over the amount of the required match. Failure to provide the amount will result in disallowance of Federal funds. Lack of supporting documentation at the time of application will not impact the responsiveness of the application for competitive review.

Please note however that although applications that fail to provide such documentation at the time of application submission will not be barred from competitive review, matching/cost sharing will be used as an evaluation and/or preference criterion. Please see Section I. Funding Opportunity Description for a description of the matching/cost share requirement as a preference criterion. Please also see Section V.1 Budget and Budget Justification for the specific matching/cost sharing criterion that will be evaluated to support this preference.

3. Other

All applicants must have a Dun & Bradstreet Number. On June 27, 2003

the Office of Management and Budget published in the **Federal Register** a new Federal policy applicable to all Federal grant applicants. The policy requires all Federal grant applicants to provide a Dun and Bradstreet Data Universal Numbering System (DUNS) number when applying for Federal grants or cooperative agreements on or after October 1, 2003. The DUNS number will be required whether an applicant is submitting a paper application or using the government-wide electronic portal <http://www.grants.gov/>. A DUNS number will be required for every application for a new award or renewal/continuation of an award, including applications or plans under formula, entitlement and block grant programs, submitted on or after October 1, 2003.

Please ensure that your organization has a DUNS number. You may acquire a DUNS number at no cost by calling the dedicated toll-free DUNS number request line on 1-866-705-5711 or you may request a number on-line at <http://www.dnb.com>.

4. Intergovernmental Review

State Single Point of Contact (SPOC)

This program is covered under Executive Order 12372, "Intergovernmental Review of Federal Programs," and 45 CFR Part 100, "Intergovernmental Review of Department of Health and Human Services Programs and Activities." Under the Order, States may design their own processes for reviewing and commenting on proposed Federal assistance under covered programs.

As of October 1, 2004, the following jurisdictions have elected to participate in the Executive Order process: Arkansas, California, Delaware, District of Columbia, Florida, Georgia, Illinois, Iowa, Kentucky, Maine, Maryland, Michigan, Mississippi, Missouri, Nevada, New Hampshire, New Mexico, New York, North Dakota, Rhode Island, South Carolina, Texas, Utah, West Virginia, Wisconsin, American Samoa, Guam, North Mariana Islands, Puerto Rico, and Virgin Islands. As these jurisdictions have elected to participate in the Executive Order process, they have established SPOCs. Applicants from participating jurisdictions should contact their SPOC, as soon as possible, to alert them of prospective applications and receive instructions. Applicants must submit all required materials, if any, to the SPOC and indicate the date

of this submittal (or the date of contact if no submittal is required) on the Standard Form 424, item 16a. Under 45 CFR 100.8(a)(2).

A SPOC has 60 days from the application deadline to comment on proposed new or competing continuation awards. SPOCs are encouraged to eliminate the submission of routine endorsements as official recommendations. Additionally, SPOCs are requested to clearly differentiate between mere advisory comments and those official State process recommendations which may trigger the "accommodate or explain" rule.

When comments are submitted directly to ACF, they should be addressed to the U.S. Department of Health and Human Services, Administration for Children and Families, Office of Grants Management, Division of Discretionary Grants, 370 L'Enfant Promenade SW., 4th floor, Washington, DC 20447.

Although the remaining jurisdictions have chosen not to participate in the process, entities that meet the eligibility requirements of the program are still eligible to apply for a grant even if a State, Territory, Commonwealth, etc. does not have a SPOC. Therefore, applicants from these jurisdictions, or for projects administered by federally-recognized Indian Tribes, need take no action in regard to E.O. 12372.

The official list, including addresses, of the jurisdictions elected to participate in E.O. 12372 can be found on the following URL: <http://www.whitehouse.gov/omb/grants/spoc.html>.

A list of the Single Points of Contact for each State and Territory is included with the application materials for this announcement.

5. Funding Restrictions

Grant awards will not allow reimbursement of pre-award costs.

Prior to award of project funds, OCS may communicate with potential grantees to ensure that the proposed projects conform to the AFI.

Due to statutory limitations, OCS may not award any single AFI Program grant of more than \$1,000,000.00.

V. Application Review Information

The Paperwork Reduction Act of 1995 (Pub. L. 104-13)

Public reporting burden for this collection of information is estimated to average 30 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed and reviewing the collection information.

The project description is approved under OMB control number 0970-0139 which expires 4/30/2007.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The following are instructions and guidelines on how to prepare the "Project Summary / Abstract" and "Full Project Description" sections of the application. Under the evaluation criteria section, note that each criterion is preceded by the generic evaluation requirement under the ACF Uniform Project Description (UPD).

1. Criteria

Project Summary/Abstract

Provide a summary of the project description (a page or less) with reference to the funding request.

Objectives and Need for Assistance

Clearly identify the physical, economic, social, financial, institutional, and/or other problem(s)

requiring a solution. The need for assistance must be demonstrated and the principal and subordinate objectives of the project must be clearly stated; supporting documentation, such as letters of support and testimonials from concerned interests other than the applicant, may be included. Any relevant data based on planning studies should be included or referred to in the endnotes/footnotes. Incorporate demographic data and participant/beneficiary information, as needed. In developing the project description, the applicant may volunteer or be requested to provide information on the total range of projects currently being conducted and supported (or to be initiated), some of which may be outside the scope of the program announcement.

Results or Benefits Expected

Identify the results and benefits to be derived.

Approach

Outline a plan of action that describes the scope and detail of how the proposed work will be accomplished. Account for all functions or activities identified in the application. Cite factors that might accelerate or decelerate the work and state your reason for taking the proposed approach rather than others. Describe any unusual features of the project such as design or technological innovations, reductions in cost or time, or extraordinary social and community involvement. Provide quantitative monthly or quarterly projections of the accomplishments to be achieved for each function or activity in such terms as the number of people to be served and the number of activities accomplished.

When accomplishments cannot be quantified by activity or function, list them in chronological order to show the schedule of accomplishments and their target dates. If any data is to be collected, maintained, and/or disseminated, clearance may be required from the U.S. Office of Management and Budget (OMB). This clearance pertains to any "collection of information that is conducted or sponsored by ACF." List organizations, cooperating entities, consultants, or other key individuals who will work on the project along with a short description of the nature of their effort or contribution.

Evaluation

Provide a narrative addressing how the conduct of the project and the results of the project will be evaluated. In addressing the evaluation of results,

state how you will determine the extent to which the project has achieved its stated objectives and the extent to which the accomplishment of objectives can be attributed to the project. Discuss the criteria to be used to evaluate results, and explain the methodology that will be used to determine if the needs identified and discussed are being met and if the project results and benefits are being achieved. With respect to the conduct of the project, define the procedures to be employed to determine whether the project is being conducted in a manner consistent with the work plan presented and discuss the impact of the project's various activities on the project's effectiveness.

Organizational Profiles

Provide information on the applicant organization(s) and cooperating partners, such as organizational charts, financial statements, audit reports or statements from CPAs/Licensed Public Accountants, Employer Identification Numbers, names of bond carriers, contact persons and telephone numbers, child care licenses and other documentation of professional accreditation, information on compliance with Federal/State/local government standards, documentation of experience in the program area, and other pertinent information. If the applicant is a non-profit organization, submit proof of non-profit status in its application. The non-profit agency can accomplish this by providing: (a) A reference to the applicant organization's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in the IRS Code; (b) a copy of a currently valid IRS tax exemption certificate, (c) a statement from a State taxing body, State attorney general, or other appropriate State official certifying that the applicant organization has a non-profit status and that none of the net earnings accrue to any private shareholders or individuals; (d) a certified copy of the organization's certificate of incorporation or similar document that clearly establishes non-profit status, (e) any of the items immediately above for a State or national parent organization and a statement signed by the parent organization that the applicant organization is a local non-profit affiliate.

Budget and Budget Justification

Provide a budget with line item detail and detailed calculations for each budget object class identified on the Budget Information form. Detailed calculations must include estimation methods, quantities, unit costs, and

other similar quantitative detail sufficient for the calculation to be duplicated. Also include a breakout by the funding sources identified in Block 15 of the SF-424. Provide a narrative budget justification that describes how the categorical costs are derived. Discuss the necessity, reasonableness, and allocability of the proposed costs.

2. Review and Selection Process

Since ACF will be using non-Federal reviewers in the review process, applicants have the option of omitting from the application copies (not the original) specific salary rates or amounts for individuals specified in the application budget.

No grant award will be made on the basis of an incomplete application.

OCS Evaluation of Applications

Applications that comply with required procedures (e.g., those that are submitted timely by an eligible applicant) will be reviewed and rated by a panel based on the evaluation criteria stated in this announcement. OCS will make funding decisions based in part on the review panel scores and in part on other factors. The other factors may include: geographic distribution of AFI Projects; the applicant's record regarding timely and proper completion of federally funded projects; audit and investigative findings and issues; the applicant's progress in resolving any final audit disallowance on Federal funding; and information collected during pre-award site visits by OCS staff or representatives of OCS.

OCS encourages and will provide preference to applicants that:

- Propose projects that will enroll participants from households with children;
- Propose projects that will enroll individuals residing within relatively well-defined neighborhoods or communities that experience high rates of poverty or unemployment; or
- Propose projects with a proportionately greater amount of funds committed from private sector sources.

Please see Section V.1 for the specific evaluation criteria that relate to these preferences.

Approved But Unfunded Applications

In cases where more applications are approved for funding than ACF can fund with the money available, the Grants Officer shall fund applications in their order of approval until funds run out. In this case ACF has the option of

carrying over approved applications up to a year for funding consideration in a later competition of the same program. These applications need not be reviewed and scored again if the program's evaluation criteria have not changed. However, they must then be placed in rank order along with other applications in later competition.

3. Anticipated Announcement and Award Dates

ACF anticipates to award funds in the third and fourth quarters of the fiscal year.

VI. Award Administration Information

1. Award Notices

The successful applicants will be notified through the issuance of a Financial Assistance Award document which sets forth the amount of funds granted, the terms and conditions of the grant, the effective date of the grant, the budget period for which support will be given, the non-Federal share to be provided, and the total project period for which support is contemplated. The Financial Assistance Award will be signed by the Grants Officer and transmitted via postal mail.

Organizations whose applications will not be funded will be notified in writing.

SUPPLEMENTARY INFORMATION:

I. Background

In recent years, many important initiatives have been undertaken by regulatory authorities and industry associations to promote international harmonization of regulatory requirements. FDA has participated in many meetings designed to enhance harmonization and is committed to seeking scientifically based harmonized technical procedures for pharmaceutical development. One of the goals of harmonization is to identify and then reduce differences in technical requirements for drug development among regulatory agencies.

ICH was organized to provide an opportunity for tripartite harmonization initiatives to be developed with input from both regulatory and industry representatives. FDA also seeks input from consumer representatives and others. ICH is concerned with harmonization of technical requirements for the registration of pharmaceutical products among three regions: The European Union, Japan, and the United States. The six ICH sponsors are the European Commission; the European Federation of Pharmaceutical Industries Associations; the Japanese Ministry of Health, Labour, and Welfare; the Japanese Pharmaceutical Manufacturers Association; the Center for Drug Evaluation and Research and the Center for Biologics Evaluation and Research, FDA; and the Pharmaceutical Research and Manufacturers of America. The ICH Secretariat, which coordinates the preparation of documentation, is provided by the International Federation of Pharmaceutical Manufacturers Associations (IFPMA).

The ICH Steering Committee includes representatives from each of the ICH sponsors and the IFPMA, as well as observers from the World Health Organization, Health Canada, and the European Free Trade Area.

During the July 2003 ICH meeting in Brussels, agreement was reached on a common vision and approach for developing an international plan for a harmonized pharmaceutical quality system that would be applicable across the life cycle of a product. This plan emphasizes an integrated approach to review (assessment) and inspection based on scientific risk management. One aspect of the plan was the establishment of an expert working

General Instructions

This form is designed so that application can be made for funds from one or more grant programs. In preparing the budget, adhere to any existing Federal grantor agency guidelines which prescribe how and whether budgeted amounts should be separately shown for different functions or activities within the program. For some programs, grantor agencies may require budgets to be separately shown by function or activity. For other programs, grantor agencies may require a breakdown by function or activity. Sections A, B, C, and D should include budget estimates for the whole project except when applying for assistance which requires Federal authorization in annual or other funding period increments. In the latter case, Sections A, B, C, and D should provide the budget for the first budget period (usually a year) and Section E should present the need for Federal assistance in the subsequent budget periods. All applications should contain a breakdown by the object class categories shown in Lines a-k of Section B.

Section A. Budget Summary Lines 1-4 Columns (a) and (b)

For applications pertaining to a *single* Federal grant program (Federal Domestic Assistance Catalog number) and *not requiring* a functional or activity breakdown, enter on Line 1 under Column (a) the Catalog program title and the Catalog number in Column (b).

For applications pertaining to a *single* program *requiring* budget amounts by multiple functions or activities, enter the name of each activity or function on each line in Column (a), and enter the Catalog number in Column (b). For applications pertaining to multiple programs where none of the programs require a breakdown by function or activity, enter the Catalog program title on each line in *Column* (a) and the respective Catalog number on each line in Column (b).

For applications pertaining to *multiple* programs where one or more programs *require* a breakdown by function or activity, prepare a separate sheet for each program requiring the breakdown. Additional sheets should be used when one form does not provide adequate space for all breakdown of data required. However, when more than one sheet is used, the first page should provide the summary totals by programs.

Lines 1-4, Columns (c) through (g)

For new applications, leave Column (c) and (d) blank. For each line entry in Columns (a) and (b), enter in Columns (e), (f), and (g) the appropriate amounts of funds needed to support the project for the first funding period (usually a year).

For continuing grant program applications, submit these forms before the end of each funding period as required by the grantor agency. Enter in Columns (c) and (d) the estimated amounts of funds which will remain unobligated at the end of the grant funding period only if the Federal grantor agency instructions provide for this. Otherwise, leave these columns blank. Enter in columns (e) and (f) the amounts of funds needed for the upcoming period. The amount(s) in Column (g) should be the sum of amounts in Columns (e) and (f).

For supplemental grants and changes to existing grants, do not use Columns (c) and (d). Enter in Column (e) the amount of the increase or decrease of Federal funds and enter in Column (f) the amount of the increase or decrease of non-Federal funds. In Column (g) enter the new total budgeted amount (Federal and non-Federal) which includes the total previous authorized budgeted amounts plus or minus, as appropriate, the amounts shown in Columns (e) and (f). The amount(s) in Column (g) should not equal the sum of amounts in Columns (e) and (f).

Line 5 - Show the totals for all columns used.

Section B Budget Categories

In the column headings (1) through (4), enter the titles of the same programs, functions, and activities shown on Lines 1-4, Column (a), Section A. When additional sheets are prepared for Section A, provide similar column headings on each sheet. For each program, function or activity, fill in the total requirements for funds (both Federal and non-Federal) by object class categories.

Line 6a-i - Show the totals of Lines 6a to 6h in each column.

Line 6j - Show the amount of indirect cost.

Line 6k - Enter the total of amounts on Lines 6i and 6j. For all applications for new grants and continuation grants the total amount in column (5), Line 6k, should be the same as the total amount shown in Section A, Column (g), Line 5. For supplemental grants and changes to grants, the total amount of the increase or decrease as shown in Columns (1)-(4), Line 6k should be the same as the sum of the amounts in Section A, Columns (e) and (f) on Line 5.

Line 7 - Enter the estimated amount of income, if any, expected to be generated from this project. Do not add or subtract this amount from the total project amount, Show under the program

Section E. Budget Estimates of Federal Funds Needed for Balance of the Project

Lines 16-19 - Enter in Column (a) the same grant program titles shown in Column (a), Section A. A breakdown by function or activity is not necessary. For new applications and continuation grant applications, enter in the proper columns amounts of Federal funds which will be needed to complete the program or project over the succeeding funding periods (usually in years). This section need not be completed for revisions (amendments, changes, or supplements) to funds for the current year of existing grants.

If more than four lines are needed to list the program titles, submit additional schedules as necessary.

Line 20 - Enter the total for each of the Columns (b)-(e). When additional schedules are prepared for this Section, annotate accordingly and show the overall totals on this line.

Section F. Other Budget Information

Line 21 - Use this space to explain amounts for individual direct object class cost categories that may appear to be out of the ordinary or to explain the details as required by the Federal grantor agency.

Line 22 - Enter the type of indirect rate (provisional, predetermined, final or fixed) that will be in effect during the funding period, the estimated amount of the base to which the rate is applied, and the total indirect expense.

Line 23 - Provide any other explanations or comments deemed necessary.
